1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 6-8, 12, and 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Formoso.

3. Claim 21 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fink et al.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3-5, 9-11, and 14-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Formoso in view of Hull. Formoso discloses the claimed invention except for the slidable table placed on top of the cabinet. Hull teaches a refrigerator cabinet having a slidable table 42 placed on top of the cabinet. It would be obvious to modify Formoso so that the top of the cabinet has a slidable table, in view of Hull, for the purpose of providing additional access to the storage space within the cabinet.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
